

Adem Burak Yazar

Full Stack Automation Engineer

860 400 2057 | www.ademyazar.com | yazarademburak@gmail.com | Kirkland/WA

PROFESSIONAL SUMMARY

As a seasoned QA engineer with over 5 years in IT, I've tested 50+ web applications, both manually and through automation. I specialize in crafting testing strategies that align software with both functional requirements and customer expectations. My expertise spans Agile, JUnit, TestNG, Cucumber/Java, Selenium WebDriver, SQL, and RESTful API testing. I have a proven track record of improving software quality and efficiency by up to 40% throughout development. I excel at leading cross-functional teams, driving process improvements, and delivering top-notch software products. My skills in test automation frameworks and tools are complemented by strong problem-solving and communication abilities. I'm dedicated to achieving outstanding results under tight deadlines while prioritizing customer satisfaction. I'm now looking for a role where I can leverage my expertise to tackle any challenge and drive success for an innovative organization.

TECHNICAL SKILLS

Methodologies: Agile (Scrum) and Waterfall / **Languages:** Java, SQL, HTML, Gherkin, JavaScript, CSS / **Testing Tools:** Selenium WebDriver, Cucumber, Postman, RESTful API / **Frameworks:** Cucumber, JUnit, TestNG, Page Object Model (POM), Behavior Driven Development (BDD), Data-Driven Development (DDD) / **Test Management:** Jira / **Build Tool:** Maven / **Databases:** MySQL / **Deployment:** Git, GitHub / **CI Tool:** Jenkins / **OS:** Windows, Mac OS / **IDE:** Eclipse / **Extra:** WordPress, Photoshop, SEO

PROFESSIONAL EXPERIENCE

Walmart | Bentonville, Arkansas | *QA Automation Engineer* | 11/2022 - Present

- Built and implemented an automation framework using **Java**, **Maven**, and **Selenium WebDriver** for eCommerce testing.
- Created **BDD** scripts using **Cucumber** and **Gherkin**, increasing test coverage by 30% and reducing test execution time by 20%.
- Conducted regression and black box testing, performing **SQL**-based backend validation using **MySQL**.
- Contributed to **Jenkins** for CI/CD and managed source code with **Git** to ensure seamless deployment.
- Used **Eclipse IDE** for development and documentation to meet customer expectations.
- Leveraged **TestNG** and **JUnit** frameworks to support testing efforts, and integrated **Data Driven Testing (DDT)** techniques.

Quest Diagnostics | Secaucus, New Jersey | *Test Engineer* | 01/2021 – 11/2022

- Established a **BDD** framework with **Java**, **Maven**, and **Cucumber** to enhance diagnostic software testing.
- Managed Smoke and Regression Test Suites; performed **MySQL** backend testing and documented results.
- Developed automated testing scripts with **Cucumber**, improving test coverage by 40%.
- Used **Selenium WebDriver** and **TestNG** to create **Java** test scripts, applying the **Page Object Model (POM)** for better automation.
- Performed vulnerability assessments, generating reports to enhance medical software security.

Atlas Software | Istanbul, Türkiye | *SDET/WordPress Developer* | 08/2019 - 01/2021

- Developed **Java** test scripts using **Selenium WebDriver** and **TestNG**.
- Transitioned from **WordPress** developer to **SDET** through **Manual Testing** and **automation skills**.
- Executed black box and regression testing for Metro Tourism's platforms, validating with **Postman** and **RESTful APIs**.
- Refined test cases and scenarios, improving test data management and documentation accuracy.
- Participated in **Agile** ceremonies, ensuring alignment with project goals and timely delivery.

EDUCATION

- **Dokuz Eylül University** | Izmir, Türkiye | 07/2019

Bachelor's Degree — Business Administration/Major - Management Information System
